

120A Distribution Box

Overview

The Distrobox 120A Disconnect Box (Camlock) is a robust and versatile power distribution solution designed for various electrical applications. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices.

The Rugged and Waterproof Design: This HA series IP65 Waterproof distribution box is designed to withstand harsh environments, ensuring a long-lasting and reliable performance. With a high protection level of IP65, it safeguards against dust and water ingress, making it ideal for outdoor or industrial.

Lucy Electric's range of low voltage outdoor cut outs and distribution boxes is engineered for durability, safety, and ease of installation in demanding environments. It has the short-circuit and over-current protection for the load, and can regularly report the BIT.

- Fully insulated heavy-duty molded rubber enclosure with HDPE top and bottom provides superior impact, weather, chemical and shock resistance -
- Tested and passed MIL-STD-810F for:
- Hydraulic-magnetic circuit breakers prevent nuisance tripping due to high ambient temperatures -
- Units can be. The Furman ASD-120 2.

Ideal for theaters, stadiums, house of worship, venues, broadcast, recording studios, and on-location film or video.
