

48-core fiber optic terminal box for wall mounting

Overview

The FS-48A/48-48C we provide is a kind of high quality, micro sized optical fiber termination box made of quality cold-rolled steel sheet and undergoes static plastic spraying treatment, which can be used to mount pigtail, the box can be installed on the indoor wall and terrace. Available with 1,2,4 fibres Pre-connectorized cable Multiple lengths available Easy to through tube Protection against any risk of interference with the laser beam Security in connection cord retention The reliability of the grip of the socket on the wall DIN rail mounted application Support fiber. The Fiber Optic Terminal Box is a kind of optical fiber management products used to distribute and protect the optical fiber links in FTTH Network. It leads out the optic signal from drop cable to pigtails by splicing in the box. Manufactured from anti-UV ABS+PC material and rated IP65, this outdoor fiber termination box ensures. 48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports.
