

Cable Mesh Tray Price List

AI Overview

Wire mesh cable trays typically range from \$0.80 to \$76 per unit depending on material, size, and purchase volume. Price Overview The cost of cable mesh trays varies widely based on material, size, and application. For B2C purchases (home or small office use), prices generally range from \$15 to \$34 per tray, with wholesale options as low as \$0.92 per unit. These are often designed for under-desk or small-scale cable management and prioritize ease of installation and aesthetics. For B2B or industrial applications, prices are broader, ranging from \$0.80 to over \$76 per unit, depending on the tray's length, width, material, and load capacity. Bulk purchases typically offer better ROI but require a larger initial investment. Material and Type Considerations Stainless Steel Wire Mesh Trays: Durable, corrosion-resistant, suitable for industrial, commercial, and outdoor use. Often used in data centers, hospitals, and large office buildings. Electrogalvanized Steel Trays: Strong and corrosion-resistant, ideal for indoor industrial applications. PVC Trays: Fire-resistant, weather-resistant, and easy to install, suitable for residential or light commercial use. Features Affecting Price Tray Size and Length: Longer or wider trays cost more due to increased material usage. Load Capacity: Trays designed to hold heavier cables or multiple layers are priced higher. Accessories and Fittings: Curves, tees, and mounting hardware add to the total cost. Installation Type: Wall-mounted, ceiling-mounted, or floor-based trays may require additional supports, influencing price. Practical Notes Wire mesh trays, also called basket trays, allow airflow to prevent cable overheating and are smooth to avoid cable damage. They can be cut or bent to fit complex layouts, making them versatile for both small and large installations. For professional-grade installations, it is recommended to add support every five feet to maintain structural integrity, which may slightly increase overall costs. In summary, expect to pay \$15-\$34 for small-scale consumer trays and \$0.80-\$76 for industrial...
