

Cable tray price on-site

AI Overview

Cable tray prices vary by material, type, size, and coating, ranging from \$2 to \$25 per meter, with multiple suppliers offering detailed price lists online.

Price Overview Cable tray costs depend on material, type, size, coating, and supplier.

Common materials include:
Galvanized Steel: Durable and cost-effective, widely used for indoor applications.
Hot-Dip Galvanized (HDG): More expensive than pre-galvanized, ideal for outdoor or industrial environments due to corrosion resistance.

Aluminum: Lightweight and rust-proof, slightly higher cost but easier to install.

Stainless Steel: Highest cost, used in hygienic or corrosive environments like food plants or coastal areas.

Plastic/Polymer Trays: Budget-friendly, suitable for light loads.

Tray types also affect pricing:
Ladder Trays: Strong, support heavy cables, higher cost.

Wire Mesh/Basket Trays: Lightweight, cheaper, ideal for data or small cables.

Perforated Trays: Moderate cost, good for ventilation and medium loads.

Typical price ranges per meter are \$2-\$25, depending on material and finish. Bulk orders often reduce the per-meter cost.
