

Contact Information for US Fiber Optic Sensors

AI Overview

For fiber optic sensor support in the U.S., you can contact AP Sensing, Sensuron, AFSI, or FiberLight for technical assistance, repairs, and customer service. Key Service Hotlines and Contacts

AP Sensing: Offers a dedicated technical support hotline for urgent assistance. You can reach their team at +49 7031 309 6699. They provide remote support, on-site service, preventive maintenance, and email assistance for fiber optic sensing systems.

Sensuron: Provides remote and on-site support, including installation, system design, software troubleshooting, and personnel training. Contact Sensuron directly through their website to schedule assistance with fiber optic sensor systems.

Amphenol Fiber Systems International (AFSI): For fiber optic repairs, customers should first obtain a Return Materials Authorization (RMA) and then call 214-547-2400 or 800-472-4225 for repair requests and technical guidance.

FiberLight: For service-impacting issues, contact their Network Operations Center (NOC) at 800-672-0181 or email NOC@fiberlight.com. For general customer service inquiries, call 844-509-0775.

Additional Support Options Many of these providers also offer remote troubleshooting via software tools, on-site training, and preventive maintenance programs to ensure long-term reliability of fiber optic sensing systems. Organizations like the Fiber Optic Sensing Association (FOSA) provide educational resources and industry guidance, which can be useful for understanding best practices in fiber optic sensor deployment. By contacting these hotlines, you can access expert technical support, repair services, and operational guidance for fiber optic sensing systems across the United States.

Article Content

SICK WLL180T-P432 Photoelectric Sensor, Fiber-Optic,

This item is on backorder. Contact us for more information Skip to the end of the images gallery Skip to the beginning of the images gallery

Fiber Optic Cable Supplier, Distributor

Stocking distributor of fiber optic installation tools, bulk fiber cables, fiber patch cables, test equipment, cable management, fiber optic training and more.

Fiber Optic Sensors

The fiber optic cables are non-contact and miniaturized, allowing them to fit into remote or tight spaces where bulky sensors may struggle. Fiber optic sensors also allow the use of specific LED colors such

Fiber Optic Sensors Manufacturers and Suppliers in the USA

Manufacturer of standard and custom wavefront sensors for contact or intraocular lenses, laser beam analysis, surface measurement, and phase parameters purposes.

Fiber Optic Connectivity Market Share & Forecast, 2026-2033

The fiber optic cables segment is expected to account for 36.0% of the global fiber optic connectivity market share in 2026. The global fiber optic connectivity market is dominated by fiber

Specialty Optical Fibers | Coherent

Coherent Specialty Optical Fibers provide a range of SM, MM, and PM fiber for laser and amplifier, beam delivery, geophysical sensing,

Fiber Optic Security System | Future Fibre Technologies

Future Fibre Technologies: Leaders in Intrusion Detection and Fiber Security Technology Future Fibre Technologies offers a comprehensive range of fibre optic intrusion detection and sensing solutions

Omron Automation E32-CC200 Cable, Diffuse, Fiber-Optic

Diffuse Fiber-Optic Cable Fiber-optic sensors detect small, fast-moving objects in space-confined installations and harsh environments ?For a custom fit in the

Home | Fiber SenSys Inc.

Fiber SenSys®, Inc., (FSI) is the market-leading manufacturer of fiber-optic intrusion detection systems for outdoor perimeters and physical data networks. FSI

Paulsson, Inc. | Fiber Optic Sensing Solutions | Pipeline Monitoring ...

Paulsson is a leader in advanced optical sensing solutions, specializing in fiber optic, seismic, acoustic, pressure, and temperature sensors for subsurface exploration. We design, manufacture, and deploy

Distributed Fiber Optic Sensing and Monitoring

Sintela is Leading distributed fiber optic sensing company offering monitoring solutions for mining, pipelines, railways, and border security to improve safety.

Banner Engineering D10AFP Sensor, Photoelectric,

Features: 35 mm DIN-Rail Mountable Fiber Optic Amplifier for Plastic Fibers Powerful Visible Red Sensing Beam (Green Sensing Beam Available) Range

Opterro | End-to-End Fiber-Optic Sensing & Analytics

Fiber-optic sensing (FOS) is a technology that uses fiber-optic cables to detect changes in the environment at the speed of light. With our multiple functional

Optical Fiber Sensors: High Resolution Fiber Optic Sensing

Along with obtaining spatially continuous measurements along the entire length of an optical fiber, each platform has multi-sensing capabilities: they can simultaneously measure strain, temperature,

Industrial Sensors & Controls Tri-Tronics EZPICO4 Fiber Optic Sensor

Tri-Tronics EZPICO4 Fiber Optic Sensor, EZ-PRO™, Infrared, 5-wire M12 Connector, O4 Proximity Block. 10 to 30 VDC Supply Voltage, polarity protected. Maximum sensing range is 18 inches. 19201

RS PRO 2199006 Fiber Optic Sensors, IP54 Rating, Black ...

Introducing the range of RS PRO Fibre Optic Sensors, a versatile and cost-effective sensing solution for a wide range of industrial and automation environments. This high-quality fibre optic sensor offers

Vacancies

Directly to Create job alert Login to (re)view your application (s) Login as an employee to view internal vacancies Search term Vacancy for Professional staff Scientific staff Position Policy and staff Legal

Fiber-optic Switches

Fiber-optic switches generally allow for rerouting optical signals in fibers, mainly in optical fiber communications.

Luna Innovations | Fiber Optic Sensing and Measurement Systems

Luna fiber optic sensing and measurement systems help design, build and maintain products and processes for aerospace, energy, and more. Explore solutions now.

ZYGO | Precision Optical Metrology | Optical Components

ZYGO is a worldwide supplier of optical metrology systems, custom optical components, and complex electro-optical systems design and

Sylex Fiber Optics

Sylex is a worldclass original design developer of firstclass optical interconnection equipment. Interconnections and Sensors solutions.

New undersea cable tech listens for sabotage — can be

The company tested its new Distributed Fiber Optic Sensing (DFOS) last year when it sent a diver to make contact with an underwater cable it was

Polarization Maintaining Fiber Market Size, Share & Trends, 2026-2035

POLARIZATION MAINTAINING FIBER MARKET SEGMENTATION By Type According to type, the market can be segmented into Panda Fiber, Bow Tie Fiber, Elliptical Fiber, Others.

Sensible Photonics Inc. | fiber optic sensors for energy assets

Our optical fiber monitoring solutions detect failures early in grid assets such as distribution transformers and energy storage systems. Our solutions deliver value with a simplified sensing solution that helps

Photonics

Photonics Spectra is a global photonics resource and magazine with news, products, research, and applications covering optics, lasers, imaging, and sensing.
