

Copper Outer Distribution Box

Overview

A versatile, robust outdoor aerial distribution point (DP) between the copper access network and the customer's premises. The closure is built to endure the harsh environment of outdoor aerial use, and has the capacity to hold 2x LSA-TL modules for a total of 20 pairs. Locks and seals can be retrofitted without any problems. Disclaimer: LSA-PLUS is a trademark of Commscope Technologies LLC and there. We find what you need. What do you need?

By checking the box, you consent to the collection and storage of the data you provide for the purpose of. Boxes for overhead TELECOM network protection and connections. Custom solutions tailored to client applications and needs Installed at overhead-underground transition points, protection and connection boxes provide protection against surges through grounding and connect and overhead cable to an. ELSTA Mosdorfer is your guarantee of reliable protection of the network infrastructure in the telecommunications and IT industry. Our stable and high-quality cabinet and enclosure systems protect the sensitive technology and ensure a reliable connection at all times.
