

Dustproof Fiber Optic Distribution Frame

Overview

It is used for different types of modules and is applied to the working area subsystem. It uses embedded surface frame, easy to install and disassemble, it has protective door and dust free. Dustproof design with IP-65 protection level. LongXing optical fiber distribution frame GPX82-1-2 is made of top quality steel and deformed aluminum alloy and treated with galvanizing, oxidation and electrostatic plastic spraying. As data centers, enterprises, telecom operators, and smart-building infrastructures deploy increasingly dense fiber links, ODFs provide the structured. Achieve successful cable management, handle high amounts of fiber cable and add density to fiber frames with the new DCX Optical Distribution Frame (ODF) System which features innovations like flippable cassettes, modular frame design and multiple configuration options.
