

Explosion-proof lighting distribution box switch model

Overview

The BXM, BXD, and BXJ explosion-proof distribution boxes are engineered for the safe operation and control of specialized equipment in hazardous environments. They vary in terms of materials, including metal and flame-retardant plastic; installation methods, such as vertical, hanging, concealed, or exposed installations; and voltage levels, including 380V and 220V. ● Explosion-proof isolation switch and explosion-proof fuse are optional. ● It is long life and maintenance-free which the service life is up to 50000 hours and. Warom specializes in manufacturing explosion-proof electrical equipment, with products covering explosion-proof lighting fixtures, explosion-proof distribution boxes, explosion-proof control equipment, explosion-proof motor switches, explosion-proof cable connectors, explosion-proof air. 1. The AGP17 is ideal for areas where. ements. Theswitch handle canbeconfigured withpadlock toprevent misop racket. For outdoor use, rainproof cover or protective cabinet can b added.
