

Galvanized cable tray price quote near Serbia

AI Overview

The cost of galvanized cable trays in Serbia typically ranges from \$10 to \$25 per meter, depending on type, material, and supplier. Price Overview Galvanized cable trays are generally affordable and durable, making them a cost-effective choice for electrical installations in Serbia. Prices vary based on:

- Material and coating:** Hot-dip galvanized steel is common and balances durability with cost, while pre-galvanized trays are cheaper but less corrosion-resistant.
- Tray type:** Ladder trays are more expensive due to their load-bearing capacity, while perforated or wire mesh trays are cheaper.
- Length and customization:** Standard lengths are usually 2.4 meters, and custom sizes or fittings can increase the price.
- Supplier and order quantity:** Bulk orders may reduce per-meter costs, while small orders or imported trays may be pricier.

Estimated Costs

- Steel galvanized trays: \$10–\$30 per meter
- Aluminum trays: \$20–\$50 per meter (lighter and rust-proof, but more expensive)

Fittings and accessories: Priced per piece, depending on type and size

Additional Considerations

- Installation costs:** Labor and mounting hardware can add to the total project cost.
- Durability:** Galvanized trays require minimal maintenance and resist corrosion, which can reduce long-term expenses.
- Sustainability:** Many trays are made from recyclable materials, supporting eco-friendly construction practices.

For precise pricing, it is recommended to contact local suppliers in Serbia such as Brilltech Engineers or Jeetmull Jaichandlall, who provide quotes based on project specifications and order volume.
