

High-precision optical power meter calibration in South Africa

AI Overview

High-precision optical power meters in South Africa can be calibrated by SANAS or ISO/IEC 17025 accredited laboratories such as Coral-i Solutions, Intercal, SGS South Africa, and TriLab SA. Accredited Calibration Providers Coral-i Solutions offers ISO/IEC 17025:2017 accredited calibration services for optical and mass metrology equipment. Their team of experienced technicians ensures instruments remain within manufacturer specifications, providing confidence in measurement accuracy and long-term reliability. They also offer service contracts for cost-effective management of test equipment and periodic calibration to prevent drift in readings (Coral-i Solutions). Intercal is SANAS-accredited in eight fields of metrology and provides both in-house and on-site calibration services. They specialize in high-precision calibration for industrial and scientific instruments, ensuring compliance with ISO17025 standards. Intercal also supports equipment qualification and documentation for regulatory compliance (Intercal). SGS South Africa provides calibration services for measurement instrumentation, including optical meters, with a focus on reducing measurement uncertainties. They offer certification of meter accuracy and calibration of primary, secondary, and tertiary instruments, using international reference standards and mobile or fixed calibration rigs (SGS South Africa). TriLab SA is SANAS-accredited for mass, volume, temperature, and humidity metrology. They provide on-site calibration services, equipment training, ongoing support, and repair services. Their scope includes precise calibration for laboratory and industrial instruments, ensuring traceable and reliable measurements (TriLab SA). Key Considerations Accreditation: Ensure the provider is SANAS or ISO/IEC 17025 accredited for optical power meters to guarantee traceability and compliance. Servi...

Electronic Parts & Components, Raspberry Pi | CPC UK

Garden Essentials Power tools, hand tools, lawn and plant care, and outdoor power.

Labfix - Calibration - Sales - Service - Repair

We understand the critical role calibration plays in your quality management systems and we are committed to providing exceptional service, prompt

Cape Instrument Services | Calibration & Certification Services

We have been providing our Calibration service for over 30 years. We will issue you with a detailed calibration certificate outlining the calibration results of your equipment.

Precision Measurements - Presision Measurements Group SA

We pride ourselves on the high accuracy of our results, turnaround times of 48 to 72 hours, and fair and competitive prices. Our team received SANAS accreditation in 1998 in previous operations and

Accredited Calibration Services

Intercal specialises in SANAS accredited calibration services to a wide range of industries. Equipment calibration is also a key service.

Service & Calibration - Coral-i Solutions

Please contact our service center for all your ISO/IEC 17025:2017 accredited test equipment calibration requirements. We offer calibration services on the

Applied Metrology Services | Calibration and Testing

Applied Metrology Services (Pty) Ltd. Provides comprehensive calibration, verification and repair services for all types of instrumentation equipment,

Gauteng Metrology Services

Gauteng Metrology Services is a repair, manufacturing and calibration services company that specialises in quality testing equipment. From physical materials

Meter Calibration Laboratory

PMT operates a meter calibration laboratory that has been accredited to ISO/IEC 17025 by SANAS, the South African National Accreditation System Laboratory

Accredited Calibration Services

Since opening in 1992, our commitment to providing the best quality and service to our clients has ensured that InterCal has grown into a leading provider of calibration services in Sub-Saharan Africa.

Measurement and Calibration | SGS South Africa

Meter calibration enables you to avoid errors and mis-measurements. From production facilities, both on and offshore, through to distribution pipeline

SANAS Accredited Calibration Companies | On-Site

As one of the leading SANAS accredited calibration companies in South Africa, our team not only supplies you with the equipment to best suit your requirements

Technology Solutions

Technology Solutions is a proudly South African company accredited by both ANAB (ANSI National Accreditation Board) and SANAS (South African National

Optical Calibration Services

Accredited optical equipment calibration services, NIST traceable. We support microscopes, laser power meters, spectrophotometers, and fiber

Technology Solutions

We serve clients nationwide with precision, integrity, and ISO/IEC 17025:2017-compliant methodologies. Since our founding in 2003, Technology Solutions has become a trusted partner for clients in need of

SANAS Accredited Calibration Companies

As one of the top SANAS Accredited Calibration Companies in South Africa, we offer precise, reliable and valid onsite calibration services.

Calibration | Applied Metrology Se

Trusted calibration specialists in South Africa. Applied Metrology offers ISO 17025-accredited calibration services for pressure, temperature, electrical, and

Calibration Services offered by Action Instruments

We strive to be a one-stop shop to help you with calibration on or off-site. Whether you require SANAS or traceable we would like to assist. We have relationships

Service & Calibration – Coral-i Solutions

Coral-i Solutions also offer a range of service and calibration contracts designed to allow the cost effective management of your test equipment, please email

Calibrations and Measurements Home

Calibration of reflection measurement 124 Ω to 600 Ω from 50 Hz to 620 kHz,
attenuation measurement 150 Ω , 0 dB to 80 dB from 6 kHz to 5 MHz Fibre Optics
Fibre optic power (e.g. fibre optic power

Montech Calibration Services | Calibration Laboratory

Montech Calibration Services is currently the only Black Woman-Owned ISO 17025 SANAS accredited calibration laboratory in South Africa, specialising in

Metrology – Precision Measurements

Our team received SANAS accreditation in 1998 in previous operations and formed Precision Measurements in 2015, continuing the high quality of service. Our

Calibration Services offered by Action Instruments

Calibration Services Action Instruments have supplied various laboratories with instruments that are used as a reference in calibration. As an example, we have
