

How much does a fiber optic patch cord cost in Cambodia

AI Overview

Standard fiber optic patch cords in Cambodia typically range from \$5 to \$30 per unit, depending on length, fiber type, and connector quality.

Overview of PricingThe cost of a standard fiber optic patch cord in Cambodia varies based on several factors, including fiber type (single-mode or multi-mode), connector type (SC, LC, MPO), cable length, and jacket material. For example, a 1-5 meter multi-mode patch cord with SC or LC connectors usually costs around \$5-\$15, while longer cords (10-20 meters) or single-mode cords can range from \$15-\$30 per unit. Armored or LSZH (Low Smoke Zero Halogen) cables, which are more durable and suitable for harsh environments, may carry higher prices.

Local SuppliersSeveral Cambodian suppliers provide fiber optic patch cords: Legrand Cambodia offers a variety of fiber optic solutions, including patch cords, suitable for data centers and structured cabling. EPES Solutions Co., Ltd specializes in ICT solutions and structured cabling, providing standard and professional-grade patch cords. PTC Computer sells specific products like 20-meter SC APC multi-mode patch cords, which are commonly used in enterprise networks.

The TradeVision lists multiple verified suppliers in Cambodia, which can be contacted for bulk or OEM pricing.

Factors Affecting Price

- Fiber Type:** Single-mode (SM) cords are generally more expensive than multi-mode (MM) due to higher precision requirements.
- Connector Type:** LC and MPO connectors require more precise alignment and polishing, increasing cost.
- Cable Length:** Prices increase linearly with length, but longer cords may have slightly higher per-meter costs due to manufacturing and shipping.
- Jacket Material:** LSZH or armored jackets add durability but also increase price.
- Bulk Orders:** Purchasing in bulk or through OEM channels can reduce the per-unit cost significantly.

For accurate pricing, it is recommended to co...
