

How much does a ring-shaped cable tray cost in Kuwait

AI Overview

Ring-shaped cable trays in Kuwait typically cost between KD 15 to KD 50 per meter, depending on material, size, and supplier.

Material and Type Considerations

The price of a ring-shaped cable tray varies significantly based on the material:

- FRP/GRP (Fiberglass Reinforced Plastic/Glass Reinforced Plastic):** Lightweight, corrosion-resistant, and fire-retardant. These are often more expensive due to their durability and specialized manufacturing.
- Mild Steel:** Strong and widely used, but may require anti-corrosion treatment. Generally more affordable than FRP/GRP.
- Aluminum or Stainless Steel:** Higher-end options for industrial or chemical environments, priced higher due to material cost and corrosion resistance.

Size and Specifications

- Diameter and thickness:** Larger diameters and thicker walls increase cost.
- Load capacity:** Trays designed to carry heavier cables or multiple layers of cables are more expensive.

Fittings and accessories: Bends, tees, reducers, and covers add to the total cost.

Supplier and Market Factors

Local suppliers in Kuwait, such as Alnafaa Group, Almeer Industries, and Brilltech Engineers, provide both standard and custom ring-shaped trays. Prices may vary depending on order quantity, customization, and delivery charges. Bulk orders often reduce the per-meter cost.

Estimated Price Range

- Small to medium FRP/GRP trays: KD 25–50 per meter.
- Mild steel trays: KD 15–35 per meter.
- Custom or large-diameter trays: KD 40–70 per meter, depending on complexity and fittings.

For an accurate quote, it is recommended to contact local suppliers directly with your specifications, including diameter, material, load requirements, and any additional fittings or covers. This ensures the price reflects the exact product and installation needs.
