

How to quickly find red light in the optical distribution box

Overview

If there is a red light leakage somewhere, turn on the flashing mode of the visual fault locator (push down), and quickly find out the fault point of the fiber optic jumper through the flashing light. If the fiber jumper is damaged due to excessive bending of the fiber, just. If you find that the Optical/Config/PON Light on your Fibre ONT (Optical Network Terminal) box is flashing, has gone off, or has gone red, this indicates there may be an issue with the fibre connection coming into your property. One of the key aspects of the ONT is the array of lights on its front. If the optical light is red, please attempt to reset the nbn™ box by using a pen or paperclip to press the reset button in. If both the power. Ever stared at your fiber internet box, heart sinking because of a dreaded red light?

Yeah, it's a common problem, and it usually means something's up with your internet connection. The ONT has a series of lights that indicate its status and any potential issues. If you're having issues and can't get your ONT to power up, contact us.
