

Huawei Smart Selection 10 Gigabit Multimode Optical Module omxd

Rear of the optical fiber distribution box

Overview

The Huawei OMXD30000 is a carrier-grade SFP+ optical transceiver designed for high-density 10G links in enterprise and telecom networks. Supporting 10 Gbit/s over single-mode fiber at a 1310 nm center wavelength, it complies with the 10GBASE-iLR standard for reliable medium-distance connections up. If the SFP-10G-ER-1310 is connected to a 10Gbase-ER standard optical module (1550nm, 10GE, 40km), the maximum transmission distance is only 20km due to different specifications such as wavelength and receiving sensitivity. Single-fiber bidirectional (BIDI) optical modules must be used in pairs. Dieses herstellerekompatible SFP+ Transceiver-Modul ist geeignet für hohen Durchsatz mit 10Gbit/s und kosteneffektiven Betrieb bis zu 82m über Multimode-Faser OM2 oder bis zu 400m über eine 10. Call us now for more info if you have any questions about our products Qualified products and guarantee your money back if return. Enjoy shopping and 5-star service here!EdgeOptic's OMXD30000 compatible is a Huawei-coded version of the EdgeOptic 10G-SFP-300 multi-vendor 10GBASE-SR SFP+ transceiver. This transceiver is compliant with SFF-8431, SFF-8432 and IEEE 802.
