

Huawei outdoor cabinet fan not turning

Overview

Capacitor failure is one of the most common reasons behind a non-working fan. Overheating, age, poor lubrication, or power surges can cause the condenser fan motor to fail. This typically requires professional replacement to restore normal function. Power System User Manual 1 Overview 1. 2 Model Number Description Figure 1-2 describes the model numbers for the TP48200A-DT19C1 and TP48200A-DT19C2 while Figure 1-3 describes those for the TP48200A-HT19C1 and TP48200A-HT19C2. NOTICE is used to address practices not related to personal injury. Issue 02 (2019-02-26) Copyright © Huawei. The S cabinet series launched by Huawei are enclosed small/medium-capacity cabinets designed with passive heat dissipation. Prevent the unit from being exposed for a long time and prevent sand, rain, and snow from entering the unit.
