

LC adapter automatically attaches dust cap

Overview

To address the need for a dust-free environment, a dust shutter is placed over the end of an LC or SC adapter. The shutter automatically opens when a plug is inserted and closes when the fiber port is removed, providing a dust-free connection. This adapter is particularly beneficial connection is preserved. Available in both Duplex and SC DX footprints, offering versatility for different setups. The adapter boasts an integral hands-free shutter mechanism that.
