

Libya Yellow Electrical Distribution Box

AI Overview

Yellow electrical distribution boxes in Libya are primarily manufactured and supplied by local companies such as Al Hussain, Altazamon, and Elsewedy Electric, meeting IEC and GECOL standards. Key Manufacturers and Suppliers Al Hussain for Electrical Industry and Services is a leading Libyan manufacturer of electrical distribution panels, including street lighting boxes and industrial distribution boards. Their products are made from ALUZINC steel sheets, similar to those used by Schneider Electric, ABB, and Siemens, and are assembled according to IEC standards and GECOL specifications. They produce panels ranging from 80–3200 A, including specialized boxes for oil and gas fields and street lighting (160A) applications. Altazamon Company, established in 1998, is another major player in Libya, providing engineering, assembly, and distribution solutions. They work closely with GECOL, ensuring that their distribution boxes and panels meet the specific needs of the Libyan electricity sector. Altazamon offers bespoke solutions for governmental and industrial clients, emphasizing safety, efficiency, and quality. Elsewedy Electric Libya operates in Tripoli and Benghazi, distributing a wide range of electrical products, including distribution boxes, cables, and accessories. They provide solutions for both residential and industrial applications, ensuring nationwide coverage. Standards and Specifications Yellow electrical distribution boxes in Libya are designed to comply with: IEC standards for electrical safety and performance GECOL specifications for compatibility with the national grid Schneider Electric specifications for international quality compliance These boxes are typically made from durable steel enclosures and are suitable for outdoor and industrial use, including street lighting, oil and gas installations, and municipal electrical networks. Applications Street lighting and public infrastructure: 160A yellow boxes for municipal lighting Industrial and oil & gas sectors: Custom panels for high-current distribution Residential and commercial proj...
