

Malta Fiber Optic Communication

Overview

Malta has cemented its status as a digital frontrunner, with telecoms provider GO plc announcing the completion of its nationwide fibre rollout – a transformative €100 million project that now brings ultra-fast internet to 371,000 homes across Malta and Gozo. Malta has three main players splitting the market. Melita dominates with the largest cable network, GO (formerly Vodafone Malta) shines in mobile, and Epic has quickly made a name for itself as a newcomer. There are also smaller providers like Vanilla Telecoms and Ozone, which often offer better. Table of Contents Malta Internet 2025: What You Need to Know About Fiber and 5G Internet Providers in Malta Compared: Epic, Melita & GO Fiber Malta: Availability and Speeds in Detail 5G Malta: Network Coverage for Mobile Work Home Office Malta: My Experience With the Digital Infrastructure Internet. Malta has three main telecommunications providers — GO, Melita, and Epic — competing in a small but genuinely competitive market. Home broadband averages 100–500Mbps on standard packages, and 5G is rolling out across the main. This guide explains everything, what fibre is, how it works, why it is better than older technologies, how it is installed in Malta, and how to get the best performance once fibre reaches your home. 1000Mbps internet | Fibre to your door | Special Offers What is Fibre Internet?
