

Mexican Fire-Resistant Cable Tray Company

AI Overview

Top fire-resistant cable tray manufacturers in Mexico include SIESA and Tecnotray, offering UL-certified, corrosion-resistant, and flame-retardant solutions for industrial and commercial applications. Leading Manufacturers SIESA SIESA provides ladder-type cable trays made from Fiberglass Reinforced Plastic (FRP), which are non-conductive, fire-retardant, and self-extinguishing, complying with ASTM E-84 and ASTM D-635 standards. Their trays are designed for industrial and commercial environments, offering UV protection, corrosion resistance, and simplified installation. SIESA trays are UL-certified, ensuring safety and reliability in critical applications such as offshore platforms, factories, and commercial buildings. Tecnotray Tecnotray manufactures a wide range of mesh-type and hinged duct cable trays using stainless steel wire and other durable materials. Their products are 100% Mexican-made and certified by ANCE, LAPEM, PEMEX, and UL, guaranteeing compliance with national and international safety standards. Tecnotray trays are designed for highly corrosive environments, including chemical, food, and saline industries, and are available in multiple colors with advanced protective coatings. General Suppliers Other suppliers in Mexico offer galvanized steel, stainless steel, and FRP cable trays in various types (ladder, perforated, trough) and sizes. These trays are designed for optimal cable support, heat dissipation, and fire protection, complying with strict safety standards. They provide flexible mounting options, corrosion-resistant coatings, and customizable fittings for tailored installations in new constructions, renovations, or retrofits. Key Features to Consider Fire Resistance: Self-extinguishing materials and flame-retardant coatings. Material Durability: FRP, stainless steel, or galvanized steel for corrosion and impact resistance. Certifications: UL, ASTM, ANCE, LAPEM, PEMEX f...
