

# Multi-purpose portable power distribution box

## Overview

Portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage. Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. 0 and PD fast charging), and 4 Anderson ports. Designed for durability in tough environments, these transportable distribution units make it easy to control and. Portable PDUs are designed to provide flexible and convenient power distribution solutions when you need to bring power to a remote location, allowing users to efficiently distribute electrical power to multiple devices or equipment from a single source. PDUs facilitate organized cable management. When you need dependable, on-the-go electrical distribution, a portable power distribution unit (PDU) is essential.
