

North Korean hot-dip galvanized cable tray price quote

AI Overview

Hot-dip galvanized cable trays typically range from \$0.40 to \$17.60 per meter depending on type, size, and order volume, with bulk orders offering significant discounts.

Price Overview

Standard ladder-type trays: Prices for 2.4-meter lengths start around \$2.5 per unit for small orders, with higher-end heavy-duty or perforated trays reaching up to \$17.6 per unit depending on specifications and supplier.

Bulk procurement: Large orders (50,000+ units) can reduce per-unit costs to as low as \$0.40 per meter, particularly from suppliers like Zhonghe Steel (Tianjin) Co., Ltd.

Mid-range suppliers: Companies such as Weifang Guqiang Cable Tray Co., Ltd. offer a balance of quality and cost, suitable for medium-volume projects.

Heavy-duty and outdoor applications: BXYC Co., Ltd. provides trays at approximately \$2.25 per meter for outdoor, high-capacity use.

Technical and Compliance Considerations

Standards: Ensure trays meet ISO 1461 and ASTM A123 for galvanizing thickness and adhesion.

Coating thickness: Minimum 80 μm zinc coating is recommended for outdoor or harsh environments.

Material grade: High-quality steel with hot-dip galvanization ensures durability, corrosion resistance, and suitability for heavy industrial loads.

Testing: Verify coating uniformity using magnetic or X-ray fluorescence methods and request sample testing reports before bulk purchase.

Procurement and Logistics

Customization: Sizes, perforation patterns, and modular designs can be tailored to project requirements.

Total cost of ownership (TCO): Consider installation labor, maintenance, and replacement frequency in addition to unit price.

Shipping and import: Freight, customs, and import duties to North Korea may significantly affect final costs. Prioritize suppliers with transparent pricing and international shipping experience.
