

Outdoor Single-Mode Dual-Core Optical Cable

Overview

0mm diameter and a length of 300 meters, this cable supports SC, FC, and LC connectors, providing excellent durability and signal integrity without the need for a cable car system. Our 150m LC-LC armored fiber cable is featuring a stable armor layer that protects against bends, crushes, and harsh environments, ensuring reliable performance in even the most challenging installations. The LC connectors at both ends are precision engineered for effortless mating and. Get OS2 single mode duplex fiber patch cables for 1G/10G/40G/100G/400G Ethernet fiber connections to transport data up to 10km at 1310nm and 40km at 1550nm. These are the outdoor fiber optic cables you see strung along telephone poles (aerial), installed inside an underground duct, or even buried directly below ground. Rugged fiber optic cable is constructed so as to resist ultra-violet light and temperature fluctuations and may include features to. Outdoor Single Mode Armoured Optical Cable GYXTW is a uni-tube, single jacket and single armor fiber optic cable designed for outdoor communication networks. It uses optical fibers placed in a loose buffer tube, protected by corrugated steel tape armor, two embedded steel wires and a black. Rugged Outdoor Durability---- The Industrial TPU Jacket features strong tensile strength, high abrasion resistance, waterproof, high and low-temperature resistance, UV-resistant, and bending resistance. Suitable for Various Harsh Installation Environments such as roads & snowfields & industrial. These are cables that are designed to meet both the rigorous environment of the outdoors but also can be routed indoors, where flame rating requirements also apply.
