

Price Range for Cable Trays and Metal Cable Trays

AI Overview

Metal cable tray prices typically range from \$2 to \$25 per meter, depending on material, type, size, and surface finish, with bulk orders offering significant discounts.

Price Overview

Per Meter Pricing: The average cost of metal cable trays ranges from \$2 to \$25 per meter, influenced by material, tray type, width, height, and surface finish. Galvanized steel is the most common and cost-effective, stainless steel is more expensive due to corrosion resistance, and aluminum is lightweight but pricier than steel. Plastic trays are cheaper but unsuitable for heavy loads.

B2C vs B2B Pricing: Retail prices for small-scale purchases (e.g., Amazon) range from \$15 to \$34 per unit, while wholesale or bulk orders (e.g., Alibaba) can range from \$0.80 to over \$76 per unit, depending on size and customization. Bulk orders can reduce costs by 20%–40%.

Supplier-Specific Rates: For example, M.G. Cable Industries in Mumbai lists coupler plates for 25/50 mm trays at ₹16 per piece and for 75/100 mm trays at ₹30 per piece, with GST and delivery charges extra. Minimum order quantities typically apply, such as 50 meters.

Factors Affecting Price

Material Type: Steel (cheapest), stainless steel (most expensive), aluminum (lightweight), plastic (budget-friendly).

Surface Treatment: Hot-dip galvanizing (HDG) and powder coating increase durability and cost.

Tray Dimensions: Wider and taller trays require more material, increasing price.

Tray Type: Ladder trays are more expensive but support heavier cables; wire mesh and perforated trays are cheaper.

Order Quantity: Larger orders reduce per-unit cost.

Installation & Shipping: Labour, accessibility, and transport costs can significantly affect total project cost.

Cost-Saving Tips

Opt for perforated trays instead of ladder trays if weight is not a concern to save up to 15%. Consider bulk purchasing or importing from regions like China to reduce costs...
