

Price list for 4-core optical fiber communication cables

AI Overview

4-core optical fiber cables typically range from \$0.03 to \$1.80 per meter, depending on type, jacket, and application.

Price Overview

Basic indoor 4-core cables: Around \$0.40 per meter for standard single-mode or multimode cables with PVC jackets, suitable for short-distance indoor distribution.

Ruggedized outdoor or armored cables: Up to \$1.80 per meter, designed for harsh environments with enhanced durability and protection.

Single-mode OS2 cables: Typically \$60–\$90 per 100-meter reel, with tight-buffered construction and PVC jacket; prices may vary with order volume and customization.

Multimode OM3/OM4 cables: Generally lower cost than single-mode, optimized for shorter distances within buildings or campuses.

Wholesale or bulk pricing: Large orders (e.g., over 1,000 meters) often receive tiered discounts, reducing per-meter cost by 20–40%.

Low-cost options: Some suppliers, like Alibaba, list prices starting from \$0.03 per meter for bulk orders, though quality and compliance should be verified.

Factors Affecting Price

Cable Type: Single-mode cables support long-distance transmission and are more expensive than multimode cables designed for shorter runs.

Jacket Material: PVC, LSZH, or armored jackets influence cost; armored or outdoor-rated cables are pricier due to enhanced protection.

Length: Longer cables cost more due to material usage, but bulk reels offer better cost efficiency.

Manufacturer and Brand: Reputable brands like OWIRE provide consistent quality, testing, and warranty coverage, which can justify higher prices.

Customization: Options like color-coded jackets, hybrid fiber-copper configurations, or specific lengths may slightly increase unit cost but improve system organization and maintenance.

Practical Considerations

Ensure the cable meets international standards (ISO/IEC 11801, TIA/EIA-568) for signal integrity and durability. Verify fiber...
