

Price list for mobile six-core ribbon optical cable

AI Overview

Pricing for 6-core ribbon optical cables varies widely depending on fiber type, jacket material, and installation requirements, typically requiring a supplier quote for accurate costs.

Factors Affecting Price

The cost of a 6-core ribbon optical cable depends on several key factors:

- Fiber Type:** Single-mode or multimode fibers (OM1, OM2, OM3, OM4) influence bandwidth, distance, and cost.
- Cable Structure:** Ribbon cables, flat cables, or armored variants affect durability and installation complexity.
- Jacket Material:** PVC, TPE, or LSZH jackets impact flexibility, UV resistance, and fire safety.
- Installation Environment:** Indoor, outdoor, air-blown, or plenum-rated cables have different pricing due to material and compliance requirements.
- Quantity and Packaging:** Bulk orders or drum lengths can reduce per-meter cost, while small quantities may be more expensive.
- Testing and Certification:** Factory testing, compliance with CPR or ISO standards, and export documentation can add to the price.

Typical Price Ranges

While exact prices require a supplier quote, general ranges for 6-core optical cables are:

- 6-core multimode fiber (OM3/OM4):** Approximately \$0.50-\$2.50 per meter depending on jacket type and quality.
- 6-core single-mode fiber:** Typically higher, around \$1-\$4 per meter due to longer-distance capability and lower attenuation.
- Ribbon flat cables for electronics or mobile applications:** Prices vary by manufacturer and specifications; suppliers like Farnell UK offer a range of 6-core ribbon cables, but exact pricing is quote-based.

Recommended Suppliers

- OWIRE Cable:** Offers B2B quotations for 6-core fiber optic cables with customizable options for jacket, armor, and testing.
- Sumitomo Electric:** Provides high-density ribbon cables suitable for data centers, FTTx, and 5G deployments.
- Alibaba:** Lists multiple 6-core multimode and single-mode fiber cables with supplier-specific...
