

Price list of steel cable trays in South Sudan

AI Overview

Steel cable trays in South Sudan typically range from \$2 to \$25 per meter, depending on material, type, and supplier. Price Overview The cost of steel cable trays varies based on material, type, size, and finish. For standard hot-dip galvanized ladder-type trays (2.4 meters in length), prices generally start at \$2-\$5 per meter for basic steel, while stainless steel trays can cost significantly more, often \$15-\$25 per meter due to corrosion resistance and durability. Wire mesh or perforated trays are usually cheaper and suitable for lighter cable loads. Factors Affecting Price Material: Galvanized steel is common and cost-effective; stainless steel is more expensive; aluminum is lightweight but pricier; plastic trays are budget-friendly but not suitable for heavy loads. Type: Ladder trays hold heavy cables and cost more; wire mesh trays are lighter and cheaper. Coating/Finish: Hot-dip galvanizing (HDG) increases durability and price; powder coating adds protection and color options; pre-galvanized trays are cheaper but less durable. Supplier and Quantity: Bulk orders can reduce per-meter cost. Local suppliers in South Sudan, such as those listed on Shopit, offer competitive pricing and delivery options. Additional Costs: Shipping, installation, and labor can add to the total project cost. Local Suppliers Shopit South Sudan: Offers a range of cable trays with fast delivery and competitive pricing from genuine dealers. International Manufacturers: Companies like Niedax and Eurotray provide stainless steel and specialized cable trays, which can be imported for larger projects. Practical Tips For budget projects, consider wire mesh or pre-galvanized trays. For outdoor or corrosive environments, stainless steel or HDG trays are recommended. Always request a quotation from local suppliers to account for shipping, taxes, and installation costs in South Sudan. By combining local supplier quotes with global pri...
