

Price of Low Voltage Drop Cable Optical Cable

AI Overview

Low voltage drop cables and optical cables typically range from \$0.50 to \$3 per meter for standard types, with bulk orders and specialized fibers affecting the final price.

Low Voltage Drop Cable Pricing

Low voltage drop cables, used for networking, security, and AV systems, are available from suppliers like Discount-Low-Voltage.com, offering wholesale pricing with no handling fees and fast shipping . Prices vary depending on cable type (Cat5e, Cat6, HDMI, pre-terminated fiber), length, and quality. Standard low-voltage cables can cost \$0.50–\$2 per meter, while pre-terminated or specialty cables may reach \$3–\$5 per meter. Bulk orders often reduce per-meter costs significantly.

Optical Drop Cable Pricing

Optical drop cables, essential for FTTH and high-bandwidth applications, are priced based on fiber type, core count, and installation environment . Common types include flat butterfly and round drop cables, with bend-insensitive fibers (ITU-T G.657.A1/A2) preferred for durability. Typical prices range from \$1–\$3 per meter for standard single-mode fibers, with bulk orders (>10 km) offering 15–30% discounts. Premium fibers like G.657.B3 or high-core-count cables (up to 24 cores) may cost more.

Factors Affecting Price

Cable Type: Round vs flat, single-mode vs multi-mode, armored vs non-armored.

Fiber Count: Higher core counts increase cost.

Certifications: RoHS, REACH, CPR Euroclass compliance may add to price.

Performance Metrics: Lower attenuation (≤ 0.4 dB/km at 1310/1550 nm), tensile strength, and crush resistance influence cost.

Supplier and Warranty: Established manufacturers with long warranties (10–25 years) may charge more but ensure reliability .

Recommended Suppliers

Made-in-China.com and Alibaba.com offer competitive wholesale pricing for both low-voltage and optical cables . Discount-Low-Voltage.com provides a wide range of networking...
