OPGW (Optical Ground Wire) is not just another fiber optic cable. It's a dual-function conductor: it serves as the grounding wire on high-voltage overhead transmission lines and houses optical fibers for communication, protection relaying, and real-time grid monitoring. CE/ISO certified, single mode G652D, aluminum-steel construction. OPGW is primarily used by the electric utility industry, placed in the secure topmost position of the transmission line where it “shields” the all-important conductors from lightning while providing a telecommunications path for internal as well as third party communications. As demand for OPGW. Hunan GL Technology Co., Ltd (GL FIBER) is a company specializing in the research and development, production and sales of optical cables.
