

Price of Optical Cable Connection Device

AI Overview

Fiber optic connectors typically range from €3 to \$10 per unit, depending on type, quality, and vendor. Overview of Pricing The cost of an optical cable connection device, such as a fiber optic connector, varies based on the type (SC, LC, ST, FC, MPO), single-mode or multimode compatibility, and vendor. Basic connectors can start as low as €3 per unit for standard plugs and sockets. More specialized or high-performance connectors, such as those used in telecommunications or high-speed networking, generally range from \$5 to \$10 or more per piece when purchased from suppliers like Amazon, Mouser Europe, or Discount Low Voltage.

Types of Connectors and Typical Costs

- SC (Standard Connector):** Push-pull latching system, commonly used in telecom and datacom; prices typically \$5–\$8 per unit.
- LC (Local Connector):** Smaller 1.25mm ferrule, ideal for single-mode applications; prices around \$5–\$10 per unit.
- ST (Straight Tip):** Bayonet-style connector, secure and convenient; usually \$4–\$7 per unit.
- FC (Ferrule Connector):** Threaded, heavy-duty for high-vibration environments; prices \$6–\$10 per unit.
- MPO (Multi-fiber Push-On):** Supports ribbon-style cables with multiple fibers; higher-end, often \$10+ per unit.

Additional Considerations

- Quantity Discounts:** Bulk purchases often reduce the per-unit cost, especially from distributors like Mouser or Discount Low Voltage.
- Accessories:** Installation tools, cleaver sets, and fiber guides may add to the total cost.
- Vendor Differences:** Prices vary between online marketplaces (Amazon) and specialized electronics suppliers (RS Components, Mouser Europe).

In summary, for a standard optical cable connection device, expect to pay between €3 and \$10 per connector, with higher-end or multi-fiber connectors costing more. Always check the vendor for bulk pricing and compatibility with your fiber type.
