

Price of cable trays in Serbia

AI Overview

Large cable trays in Serbia typically range from €20 to €80 per meter, depending on material, type, and customization.

Factors Affecting Price

Material: Cable trays are commonly made from galvanized steel, stainless steel, or FRP (fiber-reinforced plastic). Stainless steel and FRP trays are more expensive due to corrosion resistance and durability.

Type: Ladder, perforated, and trough designs vary in cost. Ladder trays are generally more expensive than perforated trays because of higher material usage and structural strength.

Size and Load Capacity: Larger trays designed to carry heavy cables or multiple layers of wiring cost more. Widths above 300-400 mm and lengths over 3 meters increase the price.

Customization: Suppliers in Serbia offer custom lengths, coatings, and fittings, which can add 10-30% to the base price.

Supplier Options

Pekom offers both plasticized and stainless steel cable trays, suitable for industrial and commercial installations. Local manufacturers provide modular and customizable solutions, often with on-site consultation and delivery.

Practical Guidance

For standard large galvanized steel trays, expect €20-€40 per meter. For stainless steel or FRP trays, prices can rise to €50-€80 per meter. Bulk orders or long-term contracts may reduce the per-meter cost. Always confirm compliance with Serbian and international safety standards when purchasing. For precise pricing, it is recommended to contact suppliers directly with specifications such as material, width, length, and load requirements to receive a tailored quote.
