

Price of installation of main control panel for distribution box

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. The cost of a new panel box depends on the box size, meter/branch requirements, enclosure type, and labor for installation. This article breaks down typical price ranges and driving factors to help homeowners and contractors budget effectively. The article outlines cost ranges, per-unit pricing, and practical. Labor Focus: Labor accounts for the largest share of the project, typically 40% to 60% of the total bill. It manages power flow and uses circuit breakers to protect wiring from overcurrent, preventing electrical fires. Replacing this unit is a significant and complex home investment.
