

# Prices of Hot-Dip Galvanized Cable Tray Models in West Asia

## AI Overview

Hot-dip galvanized cable trays in West Asia typically range from \$25 to \$120 per meter depending on type, size, and duty rating, with suppliers in UAE, Saudi Arabia, and Oman offering both standard and custom models.

**Overview of Cable Tray Types and Pricing**

Hot-dip galvanized cable trays are widely used for industrial, commercial, and infrastructure projects due to their durability and corrosion resistance. Common types include:

- Ladder Trays:** Ideal for heavy-duty applications, supporting large cable loads. Prices generally range from \$50 to \$120 per meter depending on width and load capacity (e.g., 450mm width, 50mm depth).
- Perforated Trays:** Provide moderate cable protection and ventilation, suitable for medium-duty applications. Prices typically range from \$35 to \$80 per meter.
- Solid-Bottom Trays:** Offer full protection for sensitive cables, often used in data centers or areas with dust exposure. Prices are around \$40 to \$90 per meter.
- Wire Mesh Trays:** Lightweight and ventilated, suitable for heat-sensitive environments. Prices are generally \$25 to \$60 per meter.

**Regional Suppliers and Standards**

UAE, Saudi Arabia, Oman: Suppliers like DANA Steel and Gooxoom provide hot-dip galvanized trays in standard lengths of 2–3 meters, conforming to BS EN 1461:1999 and IEC 61537 standards. They offer light, medium, and heavy-duty trays for residential, commercial, and industrial applications.

**Customization:** Many suppliers offer custom widths, lengths, and finishes, including powder-coated or epoxy-coated trays, which can affect pricing.

**Environmental Considerations:** Hot-dip galvanizing ensures resistance to moisture, coastal conditions, and harsh climates, which is particularly relevant in West Asia.

**Market Trends Affecting Prices**

- Raw Material Costs:** Steel and zinc price fluctuations can impact tray costs.
- Supply Chain:** Regional trade agreements and local manufact...
