

Production of light by EU companies

Overview

Iconic companies such as Philips (Netherlands), Osram (Germany) and others were pioneers in incandescent bulbs and later innovations. These firms pioneered mass production techniques and helped electrify homes across the continent and beyond. To deliver the lighting industry's Strategy 2030, LightingEurope focuses on Better Enforcement, Sound Product Rules, Value of Lighting and Sustainability. These figures grow even further when including the many SMEs (more than 1000 companies) represented by our national associations and active. We discuss the realm of lighting companies in Europe, exploring key players, industry trends, sustainability efforts, challenges, and future prospects. I will give you some examples of companies: Philips. This Lighting Manufacturers report provides a financial overview of the market and delivers a comprehensive individual analysis on the top 517 companies. Using an exclusive methodology, a quick glance of this Lighting Manufacturers (European) report will tell you the companies that have a declining. This section focuses on the different energy sources available in the EU – the energy produced in the EU as well as the energy imported.
