

# Purchase QSFP optical modules SFP

## AI Overview

SFP+ and QSFP optical modules are widely available from multiple vendors, supporting 10G to 400G Ethernet, with options for single-mode, multi-mode, and customizable OEM solutions. Module Types and Data Rates SFP+ modules typically support 10G Ethernet, while QSFP+ modules cover 40G, QSFP28 supports 100G, and QSFP-DD/OSFP modules are designed for 200G to 400G high-performance applications. Both single-mode and multi-mode fiber options are available, along with specialized modules such as DWDM, CWDM, and BiDi for flexible optical networking deployments (LINK-PP). Reach and Application QSFP+ modules are available for short-range (SR), medium-range (MR), and long-range (LR) applications, with distances ranging from 150 meters to 80 kilometers, making them suitable for high-density switching, routing, and data center interconnects (FS). Short-range SR-BD modules are optimized for existing duplex LC patch cables, while LR4-S modules support medium- to long-distance single-mode links with CWDM scalability for future upgrades. Vendor Options and Compatibility Major vendors offering SFP+ and QSFP modules include LINK-PP, FS, QSFPTEK, Broadcom, Cisco, Coherent/II-VI, Lumentum, and Wolon Fiber. These modules are generally hot-swappable, compatible with leading OEM switches (Cisco, Juniper, Arista, HPE, Huawei), and undergo rigorous testing for signal integrity and reliability. U.S.-based manufacturers provide strong vendor-backed support, while international OEMs offer cost-effective, flexible, and white-label options for enterprise deployments. Customization and Procurement Many suppliers offer custom labeling, firmware coding, OEM branding, and packaging options, allowing enterprises to tailor modules for specific projects. When sourcing, it is recommended to verify bit-error-rate (BER) testing on target switch models to ensure compatibility and performance. Summary SFP+ and QSFP optical modules are readily available across a wide range of speeds, distances, and fiber types, with mul...
