

Request to remove the fiber optic cable from the roof

Overview

Resolving the situation involves documentation, direct contact with the company, and escalation through government complaint channels if needed. Acting promptly also matters because delay can weaken your legal position over time. Property ownership includes the airspace directly above. Homeowners can only safely and legally remove wiring confirmed to be on the interior side of the demarcation point. Never assume a line is de-energized;. We have now decided that the roof and existing loft extension needs to be replaced, this will include the full removal of the roof and therefore fascia's and soffets. The existing cable and the original telephone cable and previous Virgin Media fibre cable also need to be removed. If unsure, contact your local. AT&T has run a fiber optic cable thru my property in an area that does not have a recorded easement.
