

Safe Electricity Use Intelligent Distribution Box Company

AI Overview

Leading companies like Yimuda Technology, Hangyue Electric, and ABB provide intelligent distribution boxes that ensure safe, efficient, and smart electricity management. Key Companies and Products Yimuda Technology Company offers a new generation of intelligent distribution boxes suitable for residential, commercial, and industrial applications. Their products feature high-strength flame-retardant materials, modular designs, and automatic power cut-off for overloads or short circuits, ensuring fire prevention. Smart models include remote monitoring for real-time electricity consumption tracking via mobile or computer, supporting precise energy management. Yimuda's products comply with IEC, UL, and CE standards and are exported to over 50 countries. Hangyue Electric provides the Hangyue HZMX and SIBOARD series, integrating IoT devices, intelligent circuit breakers, sensors, and meters. These boxes enable load management, real-time monitoring, and alarms for voltage, current, leakage, temperature, and environmental conditions. They support permission management through intelligent locks and allow monitoring via web or app platforms. Hangyue products comply with GB7251.2 and IEC61439.1/2 standards and are widely used in factories, smart parks, hospitals, schools, and renewable energy systems. ABB and other global leaders like Schneider Electric, DOHO Electric, and Legrand offer certified intelligent distribution boxes with modular designs, digital monitoring, surge protection, GFCIs, overcurrent protection, and high IP-rated enclosures. These features ensure safety, energy efficiency, and easy upgrades for residential, commercial, and industrial installations.

Safety and Smart Features

- Overload and short-circuit protection: Automatic power cut-off prevents fire hazards.
- Ground fault protection: GFCIs monitor current flow and prevent electric sh...
