

Singapore Micro-Module Outdoor Type

AI Overview

Outdoor micromodule fibre optic cables in Singapore are flexible, high-density cables designed for duct and aerial installations, offering excellent mechanical strength, water-blocking, and easy fibre access.

Overview Outdoor micromodule cables are lightweight, flexible, and compact fibre optic cables suitable for high-density telecommunications networks, trunk mains, distribution networks, and FTTx deployments. They are designed to withstand outdoor environmental conditions while maintaining high performance and reliability ().

Key Features

- Fibre Count:** Available from 2 up to 288 fibres, depending on the manufacturer and project requirements ().
- Mechanical Strength:** Reinforced with lateral guides or Kevlar yarn to prevent deformation, kinking, and bending beyond 45°, ensuring tensile strength and durability ().
- Flexibility:** Micromodule tubes are thinner than conventional loose tubes, allowing easier installation in ducts and reducing space requirements ().
- Water Blocking:** Multiple water-blocking materials provide dual protection against moisture ingress, suitable for outdoor and aerial installations ().
- Environmental Resistance:** Designed to endure temperature variations, UV exposure, and mechanical stress, making them suitable for Singapore's outdoor conditions ().
- Ease of Access:** Fibres are easy to strip and access, facilitating fast mid-span installation and maintenance ().

Applications

- Duct Installations:** Ideal for underground or conduit networks where space is limited.
- Aerial Installations:** Self-supporting options are available for overhead deployment.
- FTTx Networks:** Supports high-density fibre distribution for residential and commercial areas.
- Data Centers and Telecom Networks:** Suitable for high fibre count connections and backbone networks ().

Suppliers in Singapore

- LightMax®:** Offers duct micromodule cables with 6–144 fibres, flexible modules, and easy fibre access ().
- GL FIBER:** Provides 2–288 core outdoor micromodule cables with dual water-blocking and customized packaging options ().
- Norden Communication:** Supplies mi...
