

Six-circuit distribution box

Overview

This power distro box is designed to take 6 circuits via Socapex and distribute them into 12 Neutrik True jacks. Each circuit is labeled with its corresponding Socapex pin numbers allowing easy troubleshooting. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. The. Robust Construction: The 6 way distribution box is made of ABS and PC alloy plastic, ensuring long lasting performance. Its IP66 rating provides guard against dust and water, keeping internal components safe in harsh conditions DIN Rail Installation: This DIN rail outdoor distribution box features. Distribution boards (DB), also known as consumer units, fuse boxes or breaker panel, are essential components in electrical installations that distribute electrical power from a main supply to various circuits throughout a building.
