

Small Distribution Box 380

AI Overview

A Small Distribution Box 380V is a compact electrical unit designed for low-voltage three-phase power distribution, suitable for industrial and commercial applications. Overview A 380V small distribution box is used to distribute electrical power safely and efficiently in three-phase systems, typically for 380-415V AC networks. These boxes are designed for industrial automation, power lighting distribution, and machinery control, providing a centralized point for circuit protection and power management. Key Features Voltage Compatibility: Supports three-phase systems (three-wire, four-wire, or five-wire) up to 400V. Compact Design: Small footprint allows installation in limited spaces while maintaining accessibility for maintenance. Modular Options: Many models offer modular configurations, allowing flexible combinations of circuit breakers, sockets, and protective devices. Safety and Protection: Equipped with built-in circuit breakers (C16, C32, 3P+N 40A) and IP44/IP54 ratings for protection against overload, short circuits, and environmental factors like dust and moisture. Material and Durability: Typically made from flame-retardant ABS or metal cabinets with high-quality copper busbars for reliable electrical connections. Ease of Use: Transparent labeling, plug-in sockets, and pre-installed terminals simplify installation and maintenance. Applications Industrial Automation: Powering machinery, control panels, and frequency converters. Commercial Buildings: Lighting distribution and small-scale power management. Construction Sites: Portable power distribution for temporary setups. Specialized Industries: Rail transit, aerospace, metallurgy, oil foundries, and textile plants. Sourcing and Suppliers Zhejiang Zhegui Electric Co., Ltd. offers small 380V distribution boards with quality control and global shipping options. Saipwell SP-XL Series provides floor-standing cabinets with advanced copper busbars and durable coatings. DISTRO-DIRECT offers modular small distribution boxes with various input/...
