

Soundproof wall panels for outdoor machine room

Overview

These commercial acoustic wall panels and industrial acoustic panels are engineered to deliver sound attenuation, thermal insulation, and air sealing in a compact, modular system. Our range of acoustic enclosures and soundproofing solutions can help you reduce noise levels, creating a quieter and more efficient work environment. Noise barrier walls and noise protection fences made of soni RESIST UV are an effective and durable. Our patented All Weather Sound Panels ® give you high sound transmission loss coupled with high sound absorption, all in a weather resistant package. We engineered these incredibly durable and easily maintained sound panels specifically to resist the most rigorous industrial uses and outdoor. Machine Enclosure - Wrap loud machinery such lathes, grinders, and CNC machines in machine enclosures. Boiler Rooms - Help to minimise low-frequency noise and resonance from industrial boilers. It can create hazards in the workplace and affect your health.

Article Content

rock wool sandwich panel

For factories, steel-structure workshops, warehouses and logistics buildings, rock wool sandwich panels are commonly used as exterior wall cladding and roofing panels.
