

TK Integrated Power Supply Manufacturer

Overview

TDK-Lambda UK design and manufacture a wide range of AC-DC power supply units and DC-DC Converters for industrial and medical applications. They convert the input of commercial or DC power supplies into specified voltages or currents, and are employed in almost all electronic devices or systems that require a stable DC power. Power supply Manufacturers, Factory, Suppliers From China, We are able to do your tailored get to fulfill your own satisfactory! Our organization sets up several departments, including manufacturing department, sales department, high quality control department and service center, etc. It is the heart of our customers' systems and the core element. Shenzhen Think Future Semiconductor Co. Featuring exceptional power density, reliability, efficiency and BABA support, our offerings cover a full range of AC/DC, DC/DC and Bidirectional applications for EV charging and. We are proposing and offering optimal solutions for customers by making use of technology such as circuit board rationalization, high density part layout technology, miniaturization and weight reduction by optimizing parts.
