

UAE Cable Tray Wholesale and Customization Price Inquiry

AI Overview

Cable trays in the UAE are available from multiple suppliers with wholesale pricing depending on type, material, and customization, including ladder, perforated, wire mesh, and galvanized steel options.

Key Suppliers and Offerings

- Unigroup** - Offers perforated, ladder, wire mesh, and GRP cable trays manufactured in the UAE. Their trays are engineered for commercial, industrial, and utility applications, with corrosion and fire resistance, and comply with international standards. They provide both standard stock sizes and customized solutions, along with full accessory support for installation.
- Metar** - Supplies high-performance steel cable trays suitable for heavy-duty industrial and commercial projects. Their systems include perforated and ladder trays designed for optimal ventilation, load-bearing capacity, and long-term durability.
- Ruwais Steel** - Provides a wide range of cable trays including powder-coated, stainless steel, galvanized, hot-dip galvanized, and GI trays. They focus on cost-effective solutions for industrial and construction projects, adhering to ISO 9001:2008 quality standards.
- Bonn Group** - Offers galvanized steel, stainless steel, and aluminum trays with ladder and perforated options. They provide complete accessory sets, including bends, junction boxes, and reducers, suitable for indoor and outdoor installations.

Factors Affecting Wholesale Pricing

- Material:** Galvanized steel, stainless steel, aluminum, or GRP. Stainless steel and GRP trays are generally higher in cost due to corrosion resistance and lightweight properties.
- Tray Type:** Ladder trays for heavy-duty applications are typically more expensive than perforated or wire mesh trays.
- Customization:** Custom lengths, widths, and powder-coated finishes can increase the price.
- Accessories:** Bends, junctions, covers, and mounting hardware are often included in bulk quotes but may affect total cost.
