

Unit Price of UK Cable Trays

AI Overview

Cable trays in the UK typically range from £10 to £100 per metre, depending on type, material, and duty rating. Price Overview The cost of cable trays varies widely based on material, size, and load capacity: Light Duty Trays: Suitable for small data or power cables, often made from pre-galvanised steel or aluminium. Prices generally range from £10 to £25 per metre . Medium Duty Trays: Designed for commercial buildings, schools, or hospitals, supporting mixed cable loads. Typical prices are £20 to £50 per metre . Heavy Duty Trays: Used in industrial environments or data centres for large, heavy cables. Made from thicker steel or hot-dip galvanised steel, prices can reach £50 to £100 per metre . Material Influence Pre-Galvanised Steel: Affordable, corrosion-resistant for indoor use. Hot-Dip Galvanised Steel: Higher durability for outdoor or harsh environments, slightly more expensive. Stainless Steel (304/316): Premium option for extreme corrosion resistance, often used in chemical or coastal environments. PVC or Plastic Trays: Lightweight, fire-resistant, and weatherproof, generally cheaper than stainless steel but less load-bearing . Tray Types Ladder Trays: Ideal for heavy-duty power cables and long spans. Wire Mesh/Basket Trays: Flexible, easy to cut, suitable for data and low-voltage cables. Perforated Trays: Light to medium duty, allow ventilation for heat-sensitive cables . Additional Costs Accessories such as couplers, bends, supports, and mounting brackets can add £5-£20 per component, depending on size and material . Installation costs vary based on project complexity and labour rates. Suppliers UK suppliers include RS Components, Expert Electrical, Direct Channel, Electrical2Go, and CEF, offering a wide range of cable trays with online ordering and delivery options . In summary, when budgeting for cable trays in the UK, expect £10-£100 per metre, with the final cost influenced by tray type, material, duty rating, and accessories.
