

Vanuatu purchases fiber optic cables

Overview

ASN signed a deal with Prima in January 2024 to design, manufacture, and deploy the 375-km Tamtam subsea cable that will connect Vanuatu and New Caledonia, with an option to extend it to Fiji and Australia. OMS has been contracted to install the subsea cable. The system's Ready for Service (RFS) date is scheduled for end of 2027. The Tamtam Cable project will significantly strengthen Vanuatu's digital. ASN and OMS are pleased to announce that the Tamtam Cable contract with Prima (Vanuatu) Ltd has officially entered into force as of 16 December 2025. The cable will connect Port Vila through Lifou, New Caledonia, supplying global bandwidth. The TamTam submarine cable system consists of a 411-kilometer international segment connecting Port Vila (Vanuatu) and Lifou Island (New Caledonia), and domestic extensions to other islands in Vanuatu, including Tanna, Norsup and Luganville.
