

Wall-mounted wiring box intelligent outlet

Overview

This smart in-wall outlet delivers flexible control through dual AC plugs and two USB ports, allowing independent operation without requiring an external hub. It connects easily through a 2.4 GHz Wi-Fi network and integrates smoothly with Alexa and Google Home for hands-free commands. Smart outlets, also known as smart receptacles, are electrical outlets that can be controlled remotely through a smartphone, tablet, or voice commands via a smart home hub or voice assistants like Alexa, Google Assistant, or Siri. They typically have built-in Wi-Fi or other wireless communication. TOPGREENER is a smart outlet that remotely controls appliances, monitors energy usage and more in your home.
