

Warranty Cabinet Cold Aisle 2U

AI Overview

Cold aisle containment cabinets typically come with a limited warranty covering defects in materials and workmanship, ranging from 3 to 5 years depending on the manufacturer. Eaton Cold Aisle Containment Warranty Eaton's aisle containment systems, which include modular kits with roof panels, sliding doors, and filler panels, come with a 5-year limited warranty covering defects in materials and workmanship. This warranty applies to all included components, such as telescopic beams, key-locking sliding doors, riser panels, and assembly hardware, ensuring protection for both new installations and retrofits. Vertiv Cold Aisle Containment Warranty Vertiv offers a 3-year warranty from assembly or 42 months from shipment, whichever comes first. This warranty covers defects in materials and workmanship for their freestanding, rack-independent containment systems. The coverage applies regardless of whether the system is installed before or after the racks, providing flexibility for phased deployments. Key Considerations Coverage Scope: Warranties generally cover manufacturing defects, not damage from improper installation, misuse, or environmental factors. Components Included: Most warranties include structural frames, sliding doors, roof panels, and filler panels. Some systems also include seismic stands or dummy elements for non-standard cabinets. Installation Flexibility: Modular kits allow for easy installation without specialized contractors, and warranties typically remain valid as long as the system is installed according to manufacturer instructions. Comparing Manufacturers: Eaton provides a longer 5-year coverage, while Vertiv offers 3 years. Both warranties ensure that the containment system performs as intended in maintaining cold aisle efficiency and protecting IT equipment. Summary For a Cold Aisle 2U cabinet, you can expect a limited warranty covering defects in materials and workmanship, with Eaton offering 5 years and Vertiv offering 3 years. Always verify the warranty terms with the manufacturer to e...
