

Warranty Period for Core Switches

AI Overview

Core switches typically come with standard hardware warranties ranging from 1 to 5 years, depending on the manufacturer and product grade.

Vendor-Specific Warranty Periods

- Cisco:** Standard hardware warranty is generally 90 days, but some products have longer coverage. The warranty covers defects in materials and workmanship, with repair or replacement as the primary remedy. Software updates and TAC support are not included under the standard warranty.
- Edgecore Networks:** Warranty applies to bare-metal hardware and is effective from the date of purchase. For products still in the active product list, the warranty is valid until the product reaches End-of-Life (EOL), after which a 3-year warranty from the EOL announcement applies.
- HPE Aruba Networking:** Standard warranty durations vary by product, but most actively sold core switches come with 1 to 3 years of hardware coverage, depending on the model and purchase date.
- Juniper Networks:** Hardware is warranted to be free from defects for 1 year from the start date, which is typically the shipment date from Juniper or an authorized reseller. Software media is covered for 90 days.

Commercial vs Industrial Core Switches

- Commercial switches** are usually deployed in controlled office environments and typically come with a 3-year warranty.
- Industrial Ethernet switches**, designed for harsh environments with extreme temperatures, electromagnetic interference, and vibration, often carry a 5-year warranty. The longer warranty reflects higher reliability standards and reduced maintenance costs over time.

Key Considerations

- Warranty Start Date:** Usually begins on the date of purchase or shipment, depending on the vendor.
- Coverage:** Includes repair or replacement of defective hardware; software updates and technical support may require separate service contracts.
- Proof of Purchase:** Required to claim warranty service.
- EOL Products:** Some vendors provide a fixed warranty period post-EOL, typically 3 years for Edgecore products.

In summary, core switch warranties vary fr...
