

Which supplier offers the cheapest prices for cable tray elbows

AI Overview

The lowest prices for cable tray elbows start around \$0.65–\$1.30 per unit, depending on material and bulk order size.

Supplier Options and Pricing

Alibaba Suppliers: Bulk cable tray elbows are available for approximately \$1.3 per piece, with options in galvanized and stainless steel, suitable for industrial use and large-scale distribution . Some suppliers offer 90-degree elbows in aluminum and steel, providing durability and corrosion resistance .

Accio Suppliers: Competitive bulk pricing is available, including galvanized steel elbows at \$1.08/m for orders of 100m+, industrial steel elbows at \$1.20/m for 10,000m+, and aluminum elbows at \$0.65/m for 10,000m+ . Stainless steel elbows (SS304/SS316) are slightly higher at \$3.50/m for 5,000m+ . Accio also highlights low minimum order quantities for perforated galvanized elbows, making them cost-effective for smaller projects .

Made-in-China Suppliers: Chinese manufacturers offer wholesale cable tray elbows at competitive prices, often lower than local suppliers, with flexible payment terms and bulk discounts. These suppliers provide a wide range of materials and customization options, which can further reduce costs for large orders .

Key Considerations

Material Choice: Aluminum and galvanized steel are generally cheaper than stainless steel, but stainless steel offers higher corrosion resistance.

Bulk Orders: Prices drop significantly with larger quantities; for example, aluminum elbows can be as low as \$0.65/m for 10,000 meters .

Shipping and Handling: Total cost should include shipping, especially for international suppliers like those in China.

Supplier Reliability: Verify certifications, transaction history, and reviews to ensure quality and timely delivery.

Recommendation For the cheapest option, consider aluminum cable tray elbows from Accio or bulk orders from Alibaba/China suppliers, especially if ordering...
